Introduction 2018—2019

Today and the Future

NTU at a Glance

NTU Main Campus is located in Downtown Taipei City, and its 7 campuses occupy

1,650 active
agreements with universities in
64 countries

NTU has over 600
partner universities worldwide

5,228
international
students from
66 countries

11 Colleges

College of Liberal Arts
College of Science
College of Social Sciences
College of Medicine
College of Engineering
College of Bioresources and Agriculture
College of Management
College of Public Health
College of Electrical Engineering and Computer Science
College of Law
College of Life Science

56 Departments

6 Affiliated Hospitals

NTU Hospital, Jinshan Branch, Beihu Branch, Hsinchu Branch, Chutung Branch, and Yunlin Branch

4 Libraries

Main Library, Koo Chen-Fu Memorial Library, Medical Library, and Law Library

Housing a collection of 4 million books,
40,000 journals,

and 1 million items of non-book materials

112 Graduate Institutes

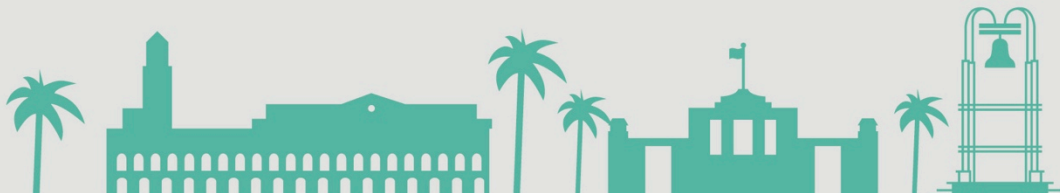

18 Master's and PhD Programs

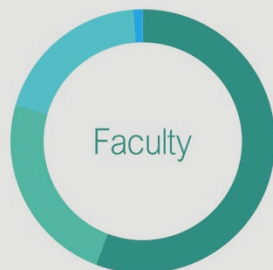

3 Professional Schools

School of Dentistry
School of Pharmacy
School of Veterinary Medicine

1 School of Professional Education and Continuing Studies

50 International or University-Level Research Centers

Reshaping Learning Models to Nurture Multidisciplinary Talents

The rapid changes across the globe have opened a wide window of employment opportunities for the rising generation, offering them a promising future. NTU provides an international learning and teaching environment that is liberal, pluralistic, and adaptable, enabling a wide array of cross-disciplinary programs and curricular reforms. In so doing, we seek to edify students' international mobility and distill in them the soft skills for prospective career advancements and research capabilities.

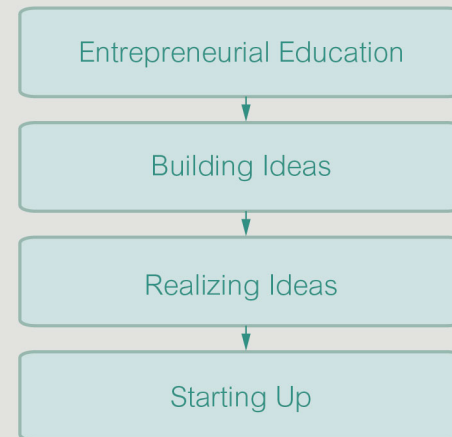

Learning without Borders: Integrating and Sharing Resources

NTU offers a wide variety of courses over several teaching/learning platforms. To build a lifelong learning environment, NTU generates digital and multimedia resources online for the public to learn and access for free. In the future, we will continue to integrate education resources from universities across Taiwan, expedite their accessibility and distribution through digitization, and provide convenient and comprehensive online learning platforms for teachers and students in Taiwan and around the world.

Building a Community of Creativity, Innovation, and Entrepreneurship

Creativity and Entrepreneurship: Cross-Disciplinary Startups on the Rise

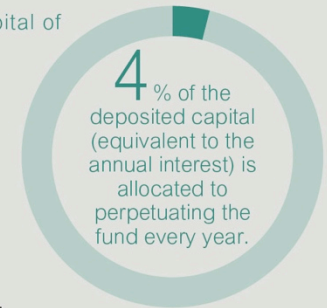

The concerted efforts of the government, academia, and private accelerators have helped build a thriving startup community in Taiwan. By now, NTU Taidah Entrepreneurship Center (TEC) has incubated over 130 startups. In 2017, we established NTU Accelerator, which engages renowned businesses across Taiwan to build long-term strategic partnerships, identify valid business models, develop startups, and facilitate national industry upgrades. By providing abundant resources, we aim to attract more competitive teams which have already developed functional prototype products. Hopefully, the examples of the participating businesses would inspire more companies to help incubate startups at NTU Accelerator.

Sustainable Scholarship Fund

NTU has raised a seed capital of

NT\$ **106** million to establish a sustainable scholarship fund for socioeconomically disadvantaged students.

Turning a Corner: Seeing a New World

NTU is keen to support students in need. In addition to offering financial aid, we have diversified our admission services, provided learning and career counseling, and installed a comprehensive support system to build up students academically, mentally, and financially. By doing so, we are empowering students to progressively learn, grow, and head toward a brighter future. In 2015, NTU initiated the Hope Admission Project for students from disadvantaged families or backgrounds, fostering a friendly learning environment as well as a venue for social mobility for students who are socially or financially underserved.

Love Never Fails: Student Engagement in Social Services

NTU students are also devoted to outreach services for those in need: they extend care to people of all ages throughout the world, applying what they have learned in the classroom. By now, our students have sent as many as 200 social service teams to remote villages in Taiwan, off-shore islands, and even places as far as Yunnan in China, Thailand, Myanmar, Malaysia, and Nepal.

Global NTU

Currently, NTU has over 600 partner universities. Since 2013, we have established strategic partnership with six internationally-renowned universities: the University of Tokyo, Kyoto University, Peking University, the University of Sydney, the University of Hamburg, and the University of Illinois at Urbana-Champaign. The strategic partnership aims to effectuate bilateral resource investments, and facilitate international education and research collaborations on key global issues (e.g., aging population, environmental sustainability, sustainable development, and urban challenges). As of now, the partnership has inspired 11 campus-wide multidisciplinary conferences, with over 1,100 participants accumulatively from NTU and our partner universities, who have formed more than 80 multinational research teams supporting over 400 faculty members and students to conduct offsite research and exchanges.

2018 APRU Annual Presidents' Meeting at NTU

The Association of Pacific Rim Universities (APRU) is a consortium of leading research universities around the Pacific Rim. One of its highlights every year — the Annual Presidents' Meeting (APM), a major international education summit — was hosted by NTU in 2018. The meeting was attended by 111 prominent leaders and administrators in the higher-learning community, including 27 presidents, 40 executive vice presidents and vice presidents for international affairs, from 39 universities based in 14 countries. They gathered in Taipei during June 24-26 to discuss global challenges posed by the ever-shifting information landscape.

66 countries

2018 University Administrators Workshop at NTU

The 13th University Administrators Workshop (UAW) drew more than a hundred international affairs administrators from 23 universities across 12 countries. The workshop explored how to retain international affairs personnel, increase administrative efficiency through big data, and improve the personnel's cross-cultural communication and teamwork skills. Launched by NTU's strategic partner, Kyoto University, the UAW has become an annual event for 13 years and is still going strong. It has met with great successes for providing a conduit for in-depth and extensive discussions on the internationalization process in higher education, and corresponding policy agendas.

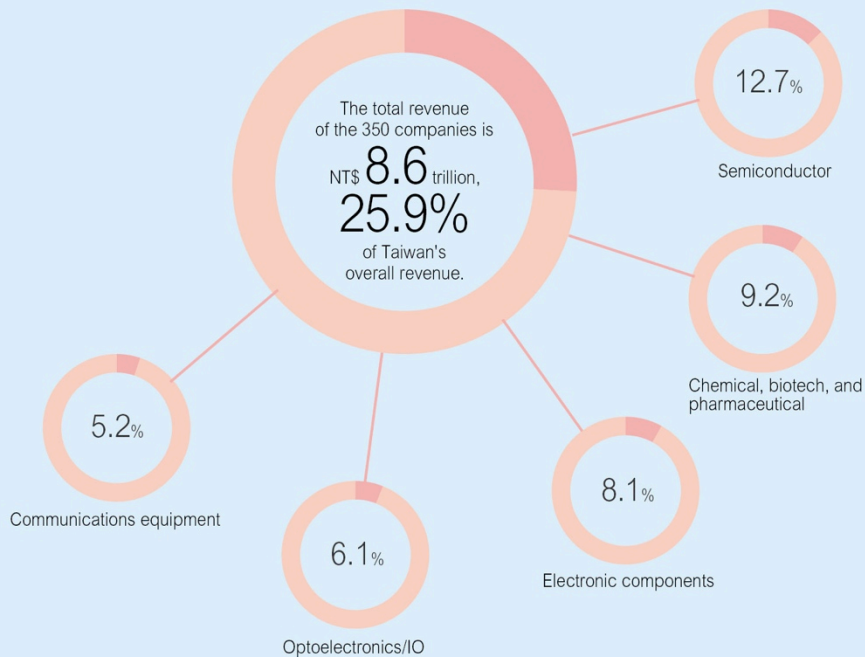

NTU Plus Academy: Year-Round Short-Term Programs

NTU Plus Academy offers a series of short-term programs on various subjects for international students, as well as outdoor activities for students to experience Taiwan's vibrant folk customs, colorful landscapes, and the country's modern and traditional cultures. During their stay in Taiwan, the students are swept away by the warmth and hospitality of Taiwanese people. Moreover, students completing the short-term programs will receive official course credits, a transcript, and a certificate of completion.

Alumni Impact

The Top 5 choices of profession for NTU alumni are in:

18% (350/1,947) of all the listed, over-the-counter, and emerging stock companies in Taiwan are headed or managed by NTU alumni.

Lifelong Friendship: Alumni Reunions

NTU has an alumni community of about 300,000. Over a thousand alumni sign up for reunions every year, some traveling as far as thousands of miles just to re-experience their former life at NTU. To ensure better and customized services, the Alumni Center began co-organizing reunions with alumni in 2007. The process of co-organizing the reunion strengthens the bond between alumni, and reflects the endless creativity and inexhaustible passion of the NTU alumni community. The goal of the reunions is to “seek out former classmates for a lifetime of enduring friendship.” In other words, the gathering lasts beyond just a single day: it strengthens comradeship on our mutual journeys of life.
