

CURRICULUM VITAE

Ching-Ray Chang

Qualifications: B.S., National Taiwan University (1979)

Ph.D. in Physics, University of California, San Diego (1988)

Thesis Title: The reversal mechanism of uniaxial ferromagnetic
particular medium

Professional Appointments:

Current Appointment: Vice President of Administrative affairs, National Taiwan University
(from June 22nd, 2013)

- Dean of College of Sciences, National Taiwan University(from August 1st, 2011 to June 21st, 2013)
- Professor of Physics, Department of Physics, National Taiwan Uinversity(from August 1st 1994)
- General Director of International Cooperation Department, National Sciences Council (from Feb. 1st, 2008 to Jan. 31, 2011)
- Associated Professor, Department of Physics, National Taiwan Uinversity(from Feb. 1st, 1989)
- Chairman of Department of Physics, National Taiwan Uinversity(from August 1st 2001 to July 31, 2007)
- Research Scientist, Materials Research Lab. Industrial Technology Research Institute , Taiwan (from Sep. 10, 1988 to Feb. 1, 1989)

Honors and Distinctions:

1. **2012: NTU Distinguished Professor**
2. 2012: Corresponding Member of *Russian International Engineering Academy*
3. 2011:The 2011 Magnetic Technology Medal, Taiwan Association of Magnetic Technologies.
4. 2010: IEEE Fellow
5. 2009: Fellow of American Physics Society
6. 2008: 1st Prize of PhD thesis advisor for Lam research Inc. award
7. 2007: The award for special contribution of Physics Community of Taiwan Physics Society.
8. 2006: 1st Prize of the research advisor for TSMC materials PhD thesis.

9. 2005: The researching award of Taiwan Information Storage Association
10. 2004: The distinguished industrial contribution award in NTU.
11. 2004: The researching award of Taiwanese Magnetic Society.
12. 1989-2001: NSC researching awards(including 5 times excellent award before it was terminated at 1996)
13. 1999: The honorable teacher award in NTU University.
14. 1999: The best remote teaching site in NTU network teaching award.

SCHOLARLY AND PROFESSIONAL ACTIVITIES:

Professional Societies:

1. IEEE Fellow selection committee of Magnetic society, 2013-2014.
2. Vice Chair of C9 : Magnetism: International Union of Pure and Applied Physics (IUPAP), (2012-2014).
3. President of Asian Union of Magnetics Societies, (2012-2013)
4. Vice President of Asian Union of Magnetics Societies, (2009-2011).
5. Administrative committee of IEEE Magnetic Society (2007-2009), (2011-2012)
6. Council member of C9 : Magnetism: International Union of Pure and Applied Physics (IUPAP) (2005-2008).(2009-2011).
7. Council member of AAPPS (2008-2010, 2011-2013)
8. Council members of Working Group of Woman in Physics, IUPAP, (2011-2016).
9. Chairperson of IEEE: Taiwan Magnetic Chapter (2005-2008)
10. IEEE Magnetic Society Technical Committee (2005-2006).(2007-2008).
11. President of Taiwan Association of Magnetic Technology, (2007-2008), (2009-2010).
12. Executive Secretary of Association of Asia Pacific Physical Society (AAPPS) (2005-2007)
13. President of Physical Society located in Taipei, ROC (2004-2005)

Academic Board and Officers:

1. International Advisor Board of NIMS(National Institute for Materials Research), Japan, (2011-2016).
2. Advisory Committee of the Conference on Magnetism and Magnetic Materials (MMM AdComm) AIT, USA (2012-2014).
3. Director for Center for Theoretical Physics, NTU (2005-2007).
4. Director for Physics North division of National Center for Theoretical Sciences, Taiwan (2005-2007).
5. Executive member, National Center for Theoretical Sciences, Taiwan (2005-2007).

International Journals:

1. Managing Editor : The journal of SPIN (2011-)
2. Editorial Board of Journal of Magnetsim and Magnetic Materials : (2008-2010)
3. Deputy-Chief Editor of AAPPS Bulletin (2005-2007)(2008-2009)
4. Chief Guest editor for special issue of Journal of Magnetism and Magnetic Materials for ISAMT'99, ISAMT '03, ISAMT 05.
5. Referee for Physics Review B, Physics Review Letters, Applied Physics Letters, IEEE Transaction on Magnetics, Nanotechnology, Applied Physics D, Journal of Applied Physics, Journal of Magnetism and Magnetic Materials, Physics Materials and Chemistry, Chinese Journal Physics, Physics Letters A, Materials Science and Engineering B, Thin Solid Films, SPIN.

International Conferences:

1. Honorable Chair of 2nd IcAUMS, 2012, Nara, Japan.
2. General Chair of InterMag 2011, Taipei
3. Program Committee of InterMag 2009, USA.
4. Program Committee of ICM 2009, Germany
5. Program Committee of MMM 2007, USA,
6. Program committee of InterMag 2005 in Nagoya, Japan.
7. The Organizer of World Year of Physics 2005- Taiwan Activities (2005).
8. Chief organizer of World Year of Physics in Taiwan (2005).
9. Chairperson of 4th Magnetic Asian Forum in Yulin, (2007).
10. Session chairman and Program committee of International magnetism conferences , e.g., InterMag, MMM, ISAMT, etc.
11. Joint to sponsor local international conferences held by Taiwanese Magnetic Technology Society, e.g., ISAMT, ISPPM, etc.
12. The international Chair of “Young Physics Ambassador Symposium”, 2005 in Taipei.

Academic Service (National Taiwan University)

1. *Chair: Department of Physics, NTU, 2001-2007*
2. *Chair: Audit committee, NTU (2005-2007), member (2003-2005)*
3. *University Congress member (1999-2007)*
4. *College congress member (199-2007)*
5. *Member of research and Development, NTU (2007-2008)*
6. *Entrance Exam committee,*

Others:

1. The chief editor of the *Introduction to Physics Department* (1994, 1997).
2. The chief editor of the *Introduction to College of Sciences, NTU*(1998)
3. Panel for Physics division of National Science Council, ROC (1996-1998), (2000-2003)
4. Chief editor(1998) and consultant(1999) of Bimonthly Physics for Physics Society located at Taipei, ROC.
5. Executive Board of Physics Society located at Taipei, ROC(1999-2000)
6. Executive Board of National Center for Theoretical Sciences.(1999-2000)

Current Projects:

1. Three dimensional magnetic sensor for electric compass, MOEA, (2012-2014).
2. Spin polarized transport in two dimensional system (2012-2014).

Research Activities

I am currently involved in a highly successful research group carrying out computational and theoretical studies of magnetic materials within the Department of Physics, National Taiwan University. We have collaborated with a lot of experimental groups around the world in addition to our own departmental experimentalists. A very important and productive collaboration is with the experimental group in Institute of Physics, Academia Sinica. The interaction between theory and experiment generated by this collaboration makes a vital contribution to the development of both models and experimental techniques.

My current research activities are focused on the following topics:

- I. *Spin transport in two-dimensional electron system*, Prof. Chang and his coworkers found that both the Rashba and the Dresselhause coupling terms of the spin Hamiltonian can be transformed into a free-electron like system, and this transformation consequently maps the complicated dynamic problem of spin transport in 2DEG onto the free electron system.
- II. *Dynamic Reversal of Mesoscopic Magnets*: To understand the inconsistent between the experimental data and reversal theory, we extend the linear theory to the nonlinear and chaotic regions. High frequency response shows that the magnetization reverses oscillatory and detailed analyses are still in progress.
- III. *Mechanism of Spin-dependence Transport*: Spin-dependent tunneling of electrons gives a very large magnetoresistance, we are now studying the possibility of spin-filter to enhance the magnetoresistance. Spin injection from ferromagnetic region into another ferromagnetic region or the semiconductor are also under intensive studies now.

- IV. *Mechanism of Exchange Bias in Spin-valve*: The origins of spin valve type multilayers are studied, especially, the topological effects on the magnetic surface anisotropy and antiferromagnetic states are emphasized. Now we are concentrated on the mechanism of exchange bias. Ultimate goal is to find the easy way to build a giant magnetoresistance, low coercivity spin valve.
- V. *Magnetic Recording Theory*: Physical processes of the magnetic recording and their associated noises are interested. We currently are concentrated on the thermal noise of bycrystal media.

Teaching Experience

I have experience of teaching at all levels,

Undergraduate:

General Physics, (1st and 2nd years), *Medical Physics*
Mechanics, Electromagnetics, Modern Physics, Mathematics for Physicists (2nd year),
Introduction to Solid States Physics

Postgraduate:

Magnetism, Special topics on Surface Sciences, Physics for Magnetic Recording,introduction of spintronics

Graduate Students: 12 Ph. D. and 9 master students graduated.

Patent: (granted)

- 1. Perpendicular magnetic recording medium and method for fabricating the same, USA, 2011/05/19
- 2. Device of Nanocrystalline thinfilm and their fabrication methods, No: I 337626, Taiwan, 2011/2/21
- 3. Thermo-writing/magnetic-reading media, US7,838,135, USA, 2010/11/23
- 4. Thermo-writing/magnetic-reading media, No. I332201, Taiwan, 2010/10/21
- 5. Adjustable recording media, No. I312151, Taiwan, 2009/07/11
- 6. Quasi spin valve of Colossal magnetoresistance bulk material, No. I309838,Taiwan, 2009/05/11
- 7. A new way to make metallic metal wire, No. I207046號,Taiwan, 2009/05/21
- 8. Theromagnetic writing and magnetic reading media and the fabrications.EP1887568, Europe, (Finland,UK,Holand), 2006/08/02, 2009/04/09
- 9. Low current sensor, recording device and their fabrication method, No. I305363,Taiwan,2009/01/11
- 10. Magnetic nanoparticle for bio-application, No. I 302605,Taiwan, 2008/11/1
- 11. A way to make sintering magnetic nanoparticle, No. I290179,Taiwan 2007/11/21
- 12. Fabrication method for L10 alloy thinfilm, No. I274788,Taiwan, 2007/03/1
- 13. A way to make metallic nanoparticle, No. I265152,Taiwan, 2006/11/1
- 14. Magnetic recording device and their application, No. I 258132,Taiwan, 2006/07/11
- 15. A way to make core-shell composite nanoparticles, No. I 240009,Taiwan,2005/09/21
- 16. Fabrication of theromowriting/magnetic reading media,No. 224305, Taiwan, 2004/11/21
- 17. Surface Plasma assisted writing of magneto-optical media, No. I224306, Taiwan, 2004/11/21

Pending:

- 1. Rapid Quench to make high density recording film, Hong Kong, No.HK1142057

2. Data storage instrument and their storage methods, Taiwan, 200947436,
3. Perpendicular Recording Media and the fabrication methods, Taiwan, 200926165
4. Perpendicular Recording thinfilm and the fabrications, Taiwan, 200917240
5. Data storage instrument and their storage methods, Hong Kong, HK1139501
6. Data storage instrument and their storage methods, China, CN1011609717

Invited speaker(Since 2006-):

1. STS, Kyoto, Oct. 2012.
2. IcAUMS, Nara, Oct. 2012.
3. WUN spintronics, Sydney, 2012.
4. Workshop on Standardisation of Chinese Physics Terminology, Singapore, Dec. 12-14, 2011.
5. Taiwan Initentalion conference of Spintronics, TICS2011, Puli, Taiwan, Dec. 2-4, 2011.
6. 17th Advanced Technologies and Applications, Kyungnam, Korea, Nov. 1-3, 2011.
7. Chinese Physics Society, Autumn meeting in HangChou, China, Sep. 15-18, 2011.
8. Moscow International Symposium on Magnetism (MISM), Moscow, Aug. 21-25, 2011.
9. 2011 “Frontier of Sciences and Technologies”, Ulanbatta, Mongolia, 2011.
10. International Conference on Materials for Advanced Technologies(ICMAT), Singapore, Jun, 2011.
11. International Conference of Asia Union of Magnetic Societies (ICAUMS), Jeju island, Korea, Dec.,2010,
12. “spin Pumping in magnetic tunneling junctions”, IUMRS Singapore, 2009.
13. “Spin Polarized transport and dynamics in magnetic tunneling structures”, InterMag 2009, CA, USA.
14. Spin Polarized transport and dynamics in magnetic tunneling structures”, InterMag 2009, CA, USA.
15. “Spin interferometer”,Asia Magnetic Conference at Busan, Dec.10-12, 2008.
16. “Spin Precession in 2DEG”, ISAMMA, Jeju island, Korea, 2007.
17. “Spin-orbital gauge influence of spin presscession”, Invited speaker at CN Yang’s 85th birthday ceremony, Singapore, 2007
18. “Spin transport in 2DEG”, Invited talk Overseas Chinese Physics Associations (OCPA), Taipei, 2006
